APPENDIX 1
DISCUSSION SECTION

(Enclosed with the Minutes of the 2026 Annual General Meeting of Shareholders No. 01/STG/BB-DHDCD dated April 23, 2026)

1. Shareholder representative Tran Van Nhien:

- Congratulated the Company on exceeding its business plan.
- Regarding the expansion into the Northern market, how does the Company assess its competitive position compared to existing players in the industry?

**** Responses from the Presidium:***

- The Company’s overall strategy is to focus on its core business, in which ports and logistics form the foundation and backbone of the Sotrans Group ecosystem. In this segment, the Southern market for ICD and inland waterway transport currently accounts for approximately 80% of barge transportation, whereas in the Northern market, this figure is below 4%, indicating significantly greater growth potential in the North. This is driven by: (i) lower transportation costs compared to road transport, and (ii) the Government’s strong policy direction toward green transport, particularly inland waterway transport—an area where the Company has a competitive advantage, including advanced barge-building technology considered among the best in Vietnam. The Company’s strategy is to replicate its successful Southern model in the Northern region.
- Regarding market position, inland waterway transport in the North remains at an early stage, with substantial untapped potential. Currently, in the inland port segment, there are two main players—Sowatco and SNT—through operations at Que Vo Port, along with a few other emerging participants. At present, Sowatco is the market leader in the Northern region, with the objective of maintaining its pioneering role and strengthening its leading position ahead of competitors. The Company is confident that the ICD and inland waterway transport segments in the North still offer significant room for growth.

After responding to the questions, no further questions or comments were raised by other shareholders./.

However, further efforts are required to enhance risk quantification, strengthen integration into business and investment planning, and improve overall effectiveness across the Group.

Based on the information provided and my participation in oversight activities throughout 2025, I observed that the Company's governance and management activities were generally conducted in compliance with applicable laws and internal regulations. The delegation and authorization framework has been appropriately designed to ensure operational efficiency while mitigating risks of abuse of authority and conflicts of interest. Decisions of the Board of Directors were discussed in a transparent and prudent manner, with a high level of consensus, and were aligned with the long-term interests of the Company and its shareholders.

The internal control and risk management systems have been maintained and progressively improved. The implementation of tools such as Control Self-Assessment (CSA) has contributed to enhancing awareness and promoting a more proactive approach to risk management across business units. Nevertheless, further improvements are required to strengthen risk quantification and to integrate risk management more deeply into business planning and investment decision-making processes.

From a financial perspective, the Company has maintained a generally stable position, and the financial statements have been prepared and presented in accordance with applicable accounting standards. However, certain matters require continued attention and close monitoring, including the effectiveness of certain investments and subsidiaries, risks related to receivables and asset management, outstanding legal obligations, and the degree of reliance on manual processes within the accounting and information technology systems.

The Company has also complied with regulations on information disclosure, related party transactions, and the management of conflicts of interest. Policies on business ethics and anti-corruption have continued to be implemented, contributing to enhanced transparency and governance standards.

On this basis, in my capacity as an Independent Member of the Board of Directors, I concur with the key contents presented in the reports of the Board of Directors and the Audit Committee submitted to the General Meeting of Shareholders.

4. Key recommendations

From an independent perspective, I recommend that the Board of Directors and the Management continue to enhance risk management practices towards a more proactive approach, closely aligned with strategic objectives, investment decisions, and resource allocation.

At the same time, it is necessary to continue reviewing and improving the effectiveness of the investment portfolio, particularly for investments showing signs of impairment, while strengthening the management of receivables, assets, and working capital. The Company should also accelerate the upgrade of its information technology systems in order to reduce reliance on manual processes and improve data reliability.

In addition, the Company should further develop its compliance management framework towards a more proactive model, while enhancing coordination among the Board of Directors, the Audit Committee, and the Management, together with strengthening accountability in key matters. Periodic evaluation of the effectiveness of the Board of Directors and its committees should also be maintained to continuously improve corporate governance in line with good practices.

5. Conclusion

This report is submitted in my capacity as an Independent Member of the Board of Directors.

Respectfully submitted to the General Meeting of Shareholders for consideration.

Sincerely,

Independent Member of the Board of Directors

**REPORT
ON BUSINESS PERFORMANCE RESULTS IN 2025
AND BUSINESS PLAN FOR 2026**

I. CONDITIONS IN VIETNAM’S LOGISTICS INDUSTRY IN 2025:

1. Vietnamese market’s logistics

Vietnam’s transportation and logistics market is estimated to reach approximately USD 52 billion in 2025, with a compound annual growth rate (CAGR) of 6.67%, and is projected to grow to approximately USD 72 billion by 2030.

Vietnam’s logistics and freight market is projected to be worth about US\$52 billion in 2025, with a compound annual growth rate of 6.67 percent, attaining approximately US\$72 billion by 2030.

Some highlights affecting to Vietnamese market’s logistics in 2025:

The Road Traffic Safety Law, effective from January 1, 2025, stipulates a time limit for driving from 2025 onwards, increasing transportation costs as businesses have to hire more drivers, leading to increased labor and management expenses. This regulation creates difficulties for long-haul transport, causing freight rates to increase by an estimated 20-25%, resulting in a 10-11% increase in logistics costs.

Vietnamese exports to the U.S. are tariffed at a 20% rate - lower than the initial 46% “reciprocal” tariff announced in April 2025 but double the 10% universal tariff. Goods that are deemed to be transshipped, however, will be tariffed at a rate of 40%. In return, Vietnam agreed to drop all tariffs on U.S. imports. Vietnam was the sixth-largest importer to the U.S. last year, supplying almost \$137 billion worth of goods and fueling a \$124 billion trade surplus with the U.S. - the third largest trade gap with the U.S. after China and Mexico.

2. The status of goods cleared through Vietnam's seaports in 2025:

According to data from the Vietnam Maritime Administration's 2025 summary report (published at the end of December 2025), the total volume of goods reached 1.17 billion tons, a 12% increase compared to 2024. This is the highest growth rate in the past three years, thanks to the boom in domestic goods (a 15% increase in the first months of the year) and the stability of import and export goods. Total container throughput is estimated at approximately 30.2 - 31.5 million TEU, an increase of about 11-12% compared to 2024. This growth rate is higher than the average of 5-7% in the previous period, thanks to the strong recovery of export orders to the US and EU in the first half of the year.

The Southern region continues to be the leading region, accounting for over 65% of the total container throughput nationwide, with a clear differentiation between river ports and deep-water ports.

The Cai Mep - Thi Vai port cluster (Ba Ria - Vung Tau) is the area with the most impressive growth rate thanks to its ability to receive mother ships sailing directly to the US/Europe. Estimated throughput for 2025: 9.2 - 9.5 million TEU (an increase of approximately 18-19%).

Ho Chi Minh City area (Cat Lai, Hiep Phuoc...): Estimated throughput in 2025 is 9.3 - 9.6 million TEU (an increase of approximately 10.5 - 13.5%).

Dong Nai area: Growth of approximately 7-13%, playing an important role as a satellite port for cargo consolidation for Cai Mep.

II. FINANCIAL PERFORMANCE RESULTS IN 2025:

2.1. Separate financial performance results:

Unit: Million VND

No	Items	Actual 2024	Actual 2025	Budget 2025	Actual 2025 vs Actual 2024	Actual 2025 vs Budget 2025
1	Net revenue	102,281	99,377	105,607	97%	94%
2	Gross Profit	34,509	31,526	34,951	91%	90%
3	Profit before tax	14,135	221,874	5,922	1570%	3747%
4	Profit after tax	10,964	217,439	4,737	1983%	4590%

2.2. Consolidated performance results:

Unit: Million VND

No	Items	Actual 2024	Actual 2025	Budget 2025	Actual 2025 vs Actual 2024	Actual 2025 vs Budget 2025
1	Net revenue	2,454,337	2,589,233	3,561,785	105%	73%
2	Gross Profit	393,927	521,054	568,386	132%	92%
2	Profit before tax	264,790	381,339	373,767	144%	102%
3	Profit after tax	203,829	312,020	314,748	153%	99%

➤ Net revenue:

+ **Compared to the 2025 budget**, consolidated revenue only reached 73%. This shortfall was primarily due to several segments failing to meet their targets. For instance, the construction segment achieved only 37% of its budget, while the oversized and overweight cargo transportation segment reached just 39%. Additionally, some mergers and acquisitions were not completed on schedule as planned for 2025.

+ **Compared to the performance in 2024**, only the construction segment (36%) and the oversized and overweight cargo transportation segment (74%) saw a significant decrease. The other segments mostly recorded double-digit growth.

➤ **Profit after tax:**

+ **Compared to the 2025 budget**, the oversized and overweight cargo transportation segment has yet to meet expectations. However, the improvement in the gross profit margins of Sowatco and Sotrans Logistics, along with substantial contributions from joint ventures and affiliated companies like Dong Nai Port and VICT Port, has enabled Sotrans Group to nearly achieve its approved profit target for 2025 (the profit plan for 2025 aims for a growth of 54% compared to the actual profit in 2024).

+ **Compared to the performance in 2024**, Sotrans Group's net profit in 2025 exceeded that of 2024 by 53%. This increase comes as Sowatco's consolidated net profit surpasses its target by nearly 14%, the net profit of the logistics segment nearly doubles that of 2024, while Vietranstimex significantly reduces its losses compared to the previous year.

2.3. Key investment activities in 2025:

- Sowatco invested over 53 billion VND to acquire 99.997% of the shares in Mekong-Can Tho Joint Stock Company.
- Sowatco put into operation two 300 TEU barges (Sowatco Platinum 1&2) to supplement its existing barge fleet.
- Sotrans Logistics has completed the acquisition of a warehouse system (including general warehouses, bonded warehouses, and chemical warehouses) in the Nhon Trach 3 Industrial Park 3, with a total land area of approximately 7 hectares, to operate logistics services for customers in the Southeast region of Vietnam.
- Sotrans Logistics was constructing a chemical storage facility in Ho Nai 3 Industrial Park, Dong Nai province, with payments made up to December 31st, 2025, totaling over VND152 billion (31/12/2024: VND97 billion).

PROPOSAL

On approving for remuneration, allowances and bonuses
to the Board of Directors 2025 and 2026

**To: 2026 Annual General Meeting of Shareholders
 South Logistics Joint Stock Company**

- Pursuant to Enterprise Law No. 59/2020/QH14 dated June 17, 2020 and documents guiding the implementation of the Enterprise Law;
- Pursuant to Securities Law No. 54/2019/QH14 dated November 26, 2019 of the National Assembly of the Socialist Republic of Vietnam;
- Pursuant to The Charter of South Logistics Joint Stock Company;
- Based on actual business situation;

The Board of Directors of South Logistics Joint Stock Company would like to propose the 2026 Annual General Meeting of Shareholders to approve the payment of remuneration, allowances and bonuses in 2025, 2026 to the Board of Directors as follows:

1. Report on payment of remuneration and allowances to the Board of Directors in 2025:

1.1. Total allowance and remuneration in 2025:

- Total remuneration and allowances to the Board of Directors in 2025 approved by the General Meeting of Shareholders: VND 1,500,000,000.
- Total remuneration and allowances paid to the Board of Directors in 2025: VND 1,284,000,000.

1.2. Bonus to the Board of Directors in 2025:

According to the audited consolidated financial statements for the fiscal year 2025, the Company recorded a consolidated after-tax profit of **VND 312,019,515,878**, equivalent to **99%** of the profit target approved by the General Meeting of Shareholders for 2025.

In 2025, although the Profit After Tax reached **99%** of the target due to fiscal policy fluctuations and unforeseen tax-related expenses, the Board of Directors (BOD) hereby submits for the approval of the General Meeting of Shareholders (GMS) a performance bonus based on the following foundational milestones and substantive outcomes:

- **Exceptional Operational Efficiency (Profit Before Tax at 102%):** Achieving **102%** of the Profit Before Tax (PBT) target is the clearest testament to the BOD's governance capability and decisive leadership in optimizing the logistics value chain. Maintaining stable gross profit margins amidst volatile input costs demonstrates an excellent command of operational risk management.

- **Completion of Governance and Ownership Restructuring:** Over the past year, the BOD managed an immense workload to restructure the SOTRANS ecosystem (specifically the strategic roadmaps for **STG, SWC, VTX, and STL**). Streamlining the ownership structure and optimizing internal capital allocation are pivotal strategic steps that have generated significant hidden surplus value for shareholders, far exceeding mere accounting profit figures.
- **Leadership in Digital Transformation and Sustainable Development (ESG):** The BOD directly steered the digitalization of the Company's various service segments, ensuring SOTRANS maintains its leading position within Vietnam's competitive logistics industry.
- **Ensuring sustainable shareholder benefits:** While the profit after tax index was impacted by technical accounting factors, the BOD successfully ensured robust operating cash flows and maintained a healthy financial standing, positioning the Company for an expansive investment phase in 2026-2027.

In recognition of the BOD's unwavering commitment and accountability during this pivotal strategic year, the Board proposes that the GMS consider and approve:

1. Performance Bonus for the BOD in 2025: Set at 1% of the Consolidated Profit After Tax, equivalent to **3,120,195,159 VND**.
2. Authorization: The GMS authorizes the BOD to decide the detailed allocation of this bonus among its members, in accordance with the approved budget."

2. Proposed remuneration, allowances and bonuses to the Board of Directors in 2026:

2.1. Fixed remuneration and allowances to the Board of Directors in 2026:

Total remuneration and allowances to the Board of Directors in 2026: VND 1,500,000,000.

2.2. Bonus to the Board of Directors in 2026:

Performance bonus to the Board of Directors in 2026 accounting for 1% of the consolidated profit after tax (audited financial statements) if it reaches or exceeds the yearly plan approved by the General Meeting of Shareholder.

We would like to respectfully submit to the 2026 Annual General Meeting of Shareholders for consideration and approval.

Respectfully!

**To: 2026 Annual General Meeting of Shareholders
 South Logistics Joint Stock Company**

- Pursuant to the Law on Enterprises No. 59/2020/QH14 passed by the National Assembly on June 17, 2020, and its amending and supplementing documents, and guiding implementation documents;
- Pursuant to the Law on Securities No. 54/2019/QH14 passed by the National Assembly on November 26, 2019, and its amending and supplementing documents, and guiding implementation documents;
- Pursuant to Decree No. 155/2020/ND-CP dated December 31, 2020, by the Government detailing the implementation of some articles of the Law on Securities regarding corporate governance applicable to public companies; and Decree No. 245/2025/ND-CP dated September 11, 2025, amending and supplementing several articles of Decree No. 155/2020/ND-CP;
- Pursuant to Circular No. 116/2020/TT-BTC guiding the implementation of some articles on corporate governance applicable to public companies as issued by the Minister of Finance;

- Pursuant to Circular No. 19/2025/TT-BTC dated May 5, 2025;
- Pursuant to other relevant applicable laws and regulations;
- Pursuant to Official Letter No. 7175/UBCK-GSDC dated November 6, 2025 issued by the State Securities Commission regarding the Company's failure to meet the conditions for a public company;
- Based on the actual needs and situation of the Company,

I. Information on the Public Company:

- Company Name : **South Logistics Joint Stock Company**
- Head Office Address : 1B Hoang Dieu, Xom Chieu Ward, Ho Chi Minh City
- Charter capital : 982,533,570,000 dong
- Stock code : STG

- Type of shares : Ordinary shares
- Par value of shares : 10.000 dong/share
- Stock exchange : HSX

II. Current Shareholding Structure:

Pursuant to Point a, Clause 1, Article 32 of the Law on Securities No. 54/2019/QH14, as amended and supplemented: *“A company with a charter capital of at least VND 30 billion and equity of at least VND 30 billion, with at least 10% of the voting shares held by at least 100 investors who are not major shareholders.”*

As at March 16, 2026 (based on the shareholder list finalized by VSDC), the Company’s current shareholding structure is as follows:

- Number of non-major shareholders: **520** shareholders, holding **0.682%** of charter capital;

Accordingly, the Company’s shareholding structure does not satisfy the requirement that *“at least 10% of the voting shares must be held by at least 100 investors who are not major shareholders”*, and therefore, **the Company no longer meets the conditions to qualify as a public company (“Public Company”)** in accordance with applicable laws.

In line with the Company’s long-term development plan as well as the strategic direction of its major shareholders, the major shareholders currently have no plan to divest or reduce their ownership in the Company. At the same time, the Company has no plan to conduct a public offering to increase its capital in order to meet the aforementioned conditions applicable to a public company.

Maintaining the current concentrated shareholding structure is intended to ensure efficiency and consistency in corporate governance and management, enhance the Company’s operational performance, and ultimately maximize the long-term value of the Company and its shareholders.

The Board of Directors respectfully submits to the 2026 Annual General Meeting of Shareholders for approval the following matters:

- 1.
